DETAILED ACTION

Allowable Subject Matter

Claims 1-14 allowed.

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious an apparatus for correcting errors generated by a laser with non-ideal tuning characteristics including: a laser having non-ideal tuning characteristics; at least three interferometers positioned in an operable relationship to the laser, wherein a sampling interferometer and at least one auxiliary interferometer correct for residual errors resulting from the laser; and wherein a measurement interferometer makes a measurement; and a signal acquisition system positioned in an operable relationship to each interferometer, in combination with the rest of the limitations of claim 1.

As to claim 7, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for correcting errors generated by a laser with non-ideal tuning characteristics including: providing a laser having non-ideal tuning characteristics; positioning at least three interferometers in an operable relationship to the laser, wherein a sampling interferometer and at least one auxiliary interferometer correct for residual errors resulting from the laser, and wherein a measurement interferometer makes a measurement; and positioning a signal acquisition system in an operable relationship to each interferometer, in combination with the rest of the limitations of claim 7.
